

Meeting #3: Environmentalist

Homework

Anchoring in Christ Character Activity

Memorize Ephesians 6:1-3 (NKJV)

Children, obey your parents in the Lord, for this is right. Honor your father and mother, which is the first commandment with promise: "that it may be well with you and you may live long on the earth."

Environmentalist

Complete the Environmentalist worksheet. Help make your local environment better by picking up litter in a place that you enjoy visiting (ex: park, hiking trail, bike path, etc.)

Complete requirements for My World III, Environmentalist #1-3,6.

Meeting #3: Environmentalist

Classwork

Special Guest: Nature Lover!

Guest will explain what causes pollution and how it can be prevented. Together as a group you will investigate some types of pollution and how they happened and why. Brainstorm ways to keep your water and air clean.

Complete requirements for My World III, Environmentalist #5.

Idaho Trees

Investigate some trees that are in danger in our area. How can you help these trees? Together as a group adopt or plant a tree(s).

Complete requirements for My World III, Environmentalist #4.

World Made New

On a large piece of paper work together to make a mural of what the world will be like when God re-creates it! (Rev. 21,22; Isa. 11:6) Nobody was there to see God create our Earth the first time, what do you think it will be like to watch God re-create our world and erase every ugly trace of sin!

Complete requirements for My World III, Environmentalist #7.

 _____

Environmentalist

Read Genesis 1:26.

We were made in the image of God. That means we are supposed to be like Him. What is God like? Write three words that describe God's character.

God gave us responsibility over the whole earth. How can you show God's character in the way that you care for the Earth?

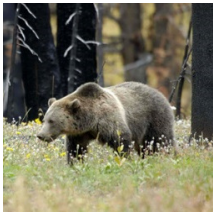

Match the endangered animals on the left with the reasons for endangerment on the right.

Woodland Caribou

Canada Lynx

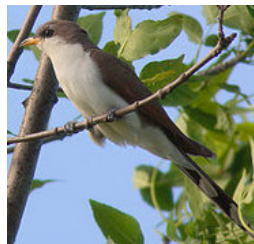

Grizzly Bear

This strong animal was once common all across the western United States, but now suffers from habitat loss due to logging, mining and land development. This habitat loss and threats to key food sources have also led to more conflicts with humans resulting in death.

By 2018 only a few of these animals remained in their southern territory in the Selkirk mountains. They were captured and moved north and are now integrated with the Columbia North subpopulation.

This shy animal suffered greatly from over-trapping and is still endangered by recreational use and over-logging in his environment.

These Idaho birds are either threatened, endangered or a species of concern. Match their pictures to their names. Talk about how you can protect these birds.

Bald Eagle

Greater Sage-Grouse

Yellow-Billed Cuckoo
