Meeting #16: Carpenter

Classwork

Bird House Project

Briefly review the names of the tools you will be using, how to care for them, and what safety rules to follow. Listen to the instructions and make your own bird house. This is a complex project and expected to take the whole evening. Dads, Uncles, Grandpas this is a great time to join your Helping Hands kids and work together with them on this project!

 _____

Carpenter

A Carpenter is a _____ who makes and repairs _____ objects and structures.

Jesus worked with His earthly father, Joseph, as a carpenter for 30 years (Luke 2:23). Imagine that! The majority of Jesus' life was not in public ministry but in quietly working and serving others. What sorts of things do you think Jesus made? Maybe tables, benches, cabinets, stairs, doors, and window frames? Maybe he made some spoons for His mother to use in the kitchen, a toy for a young village boy, or even a bird house!
